## REPORT OF FOREST FIRE WARDENS

Once again we are about to enter another forest fire season and once again your town forest fire warden is asking you to be careful of fires in our woodlands and along our roadsides. There is nothing more displeasing to the eye than an area of blackened waste. Nine out of ten of these blackened areas are caused by You and You. It is only with your co-operation that we can prevent such an area in our town. A great part of the men and women of this area depend on timber for their weekly paycheck, and by you and you being careless, these people are being deprived of a living. We can't even try to prevent fires caused by lightning, but the number of fires caused by this agent is very small. It is you as a smoker, as a debris burner, — you as a careless person, who can do a great deal in preventing this most shameful waste of our natural resources.

You can help by making sure your smoking material is out — DEAD OUT, your incinerator is airtight, the area around it is cleaned of all burnable material, that you have had it inspected by your forest fire warden, that you have asked for and received a permit to burn from your forest fire warden. By doing these things the number of fires are going to be fewer and you will have woodlands to hunt in, to have picnics in, to be able to fish the stream. You will also be proud of your green mountainsides. By not doing this you will not enjoy yourself at all. It is not too long ago that most of us can still remember the fall of 1947, and we all know that most of these fires during that period could have been prevented if everyone was careful. So, it is only You and You that can prevent this most shameful waste of our woodland by this common enemy — FIRE.

Please remember it is a proud record for you to say that your town had no woods fires this past year and it is only through you and you this goal can be reached. So, please help us to prevent forest fires.

### 1952 FOREST FIRE RECORD

Number of fires, 2; acreage burned three-fourths acre; number of permits issued, 26.

# Report of Superintendent

## **To the Citizens of Bartlett:**

The report which was made last year concerning our public schools could almost be duplicated this year. For in the last year's report the question at hand was — How can the Bartlett School District provide its children with good educational services and facilities and keep the cost down. As far as lower costs are concerned the answer cannot be found any more readily this year than it could last year.

The factor that most determines the kind of education we provide for our children rests in the kind of teaching staff we have. In order to maintain our good teachers we have to keep pace with the demands for teacher services when so few new teachers are available. Since there are not enough teachers to fill the positions needed, it has become necessary to pay new teachers about the same salary that our good experienced teachers are now getting.

The largest percentage increase in the School District Budget for 1953-1954 is reflected in the teacher salary item.

Our hot lunch programs have become an integral part of the total school program. We are serving well-balanced, nutritious lunches to approximately sixty per cent of our school children. It would not be possible to serve these lunches for twenty or twenty-five cents were it not for the assistance from Federal sources in the form of surplus foods and a direct subsidy of six cents per meal.

The importance of this program can be directly related to the health of our children and youth — its continuance will require the School District to pay the salaries of our cafeteria personnel.

State and national recognition of the worth and ability of one of our teachers of Bartlett was no surprise to us who have worked with Mrs. Bertha James. We are proud of her contributions to our local educational program and of the high honor bestowed on her as the new President of the New Hampshire Classroom Teachers' Association.

Several of our teachers are availing themselves of the opportunity for professional growth through advanced study and training by taking the in-service educational courses at Kennett High School. These extension courses are sponsored by the New Hampshire State Department of Education and our teacher-training colleges.

I wish to express my appreciation to the School Board for their assistance in the administration of our schools.

## REPORT OF SCHOOL NURSE

I hereby submit my report of the health program in the Bartlett schools for the year 1951-1952.

Throughout the year the physical defects found in the school children have been corrected, or are under treatment. Since most of the Clinics are so far away I appreciate the efforts of the parents to get the children to these Clinics held in Berlin, Concord, Hanover, Laconia, and North Conway.

I also thank Dr. John Twaddle for coming to the school and checking the hearts of all students who participate in basketball, and for administering inoculations and vaccinations at the Clinics.

Since dental care is a year-round program we have had many defects corrected this year and are looking forward to the Dental-mobile which is booked to come to Intervale during the week of February 9, 1953.
